40	/all-forms/2?language_id=1	Get all submissions for form	
41	/countries	Get country data	
42	/users	Get user data	
43	/usertypes	Get user type list	

DUPLICATES REMOVED

The following exact duplicate entries were removed from the supplied list:

- /translations?language_id=2
- /suppliers?radius=5

The repeated /suppliers and /products/suggestions entries were kept only when their query parameters were different, because those represent different test cases.

NOTES

- Base URL: <https://fivoflow.com/wclm/public/api>
- Query parameters shown in the endpoint column are the values supplied in the original API list.
- The /all-forms/8?export=csv endpoint is intended for CSV export.
- User registration is included in the endpoint list.
- This document cleans the provided endpoint list only; it does not change API behavior or backend logic.
